Floor scraper FRE350

Working width 350 mm

Directly driven impact mechanism – low maintenance and reliable

Ergonomically designed handle bars with control unit incl. dead man's switch

Integrated weights are adjustable to three positions

The FRE350 sets new standards for floor scraper performances. The extra strong design enables peeling and removing of carpets, tiles, directly bonded parquet floors, fillers and coatings. Integrated weights are adjustable to three positions, ensuring maximum blade performance on different floor conditions, higher pressure on the drive wheels or more weight on the tool. The unique self propulsion (independent drive unit) can be used either manually or in automatic mode.
