

FEROX 200 SHOT BLASTER

Ferox 200 shot blaster is very flexible and user friendly with high performance. A robust built shot blaster but at the same time very compact. Ferox 200 can be increased with one more machine to double the working width. The machine has a low height to maximize the concentration of the impact force and a "travel mode" that prevents damage that can occur during transport.

The Ferox 200 is equipped with led lights that ease the work where the visibility is a bit reduced. A very versatile shot blaster with high efficiency where the user easily can maintain the machine itself.

VERSATILE SHOT BLASTER

ROTATION SPEED
2895 / rpm

WORKING WIDTH
200 mm / 8"

WEIGHT
210 kg / 462 lbs

TECHNICAL DATA

Working width	200 mm / 8"	Rotation speed	2895 rpm
Voltage	400 V 3~	Weight	210 kg / 462 lbs
Frequency	50 Hz	Height	105 cm / 41"
Current	16 Amp	Lentgh	148 cm / 58"
Motor power	4 kW	Width	34 cm / 13"

Can be increased with one more machine to double the working widht
