Dust extractor VCE1200D

1-phase, motor power of 1.2 kW

Longopac dust bag system

H13 HEPA filter ensures 99.95 % particle capture ≥0.3 µm, keeping air clean and safe

Non-marking 10-inch wheels that are construction site proof

The VCE1200D dust extractor is specially developed for floor grinding but is also excellent for other applications that require efficient dust collection. It offers a 1.2 kW power class to meet individual user needs. The model is H-Class certified and equipped with a cyclone system, a conical pre-filter, and a reliable H13 HEPA filter. Easy, user-friendly operation is ensured by accessible controls, a low noise level, and the Longopac dust bag system. Its compact design and lightweight construction allow for trouble-free transport, further supported by non-marking 10-inch wheels that are construction site proof.
