Dust extractor VCE2400D

1-phase, motor power of 2.4 kW

Longopac dust bag system

H13 HEPA filter ensures 99.95 % particle capture ≥0.3 µm, keeping air clean and safe

Non-marking 10-inch wheels that are construction site proof

The VCE2400D dust extractor is specially developed for floor grinding but also performs excellently in other applications requiring efficient dust collection. It is equipped with a 2.4 kW power class to suit specific project demands. The model is H-Class certified and features a cyclone system, a conical pre-filter, and a reliable H13 HEPA filter. User-friendly operation is achieved through easily accessible controls, low noise levels, and the Longopac dust bag system. Its compact and lightweight construction ensures easy transport, enhanced by non-marking 10-inch wheels suitable for construction sites.
