

# Dust extractor VCE3000C

VCE3000C LP and VCE3000C CT

Longopac system for filter unit

Container version for filter unit available

HEPA + Longopac (LP) version

The VCE3000C dust extractor impress with high performance and are based on an optimal combination of maximum depression and the highest air flow volume.

They have a wide range of applications in the construction industry and are suitable for milling and floor grinders, floor saws as well as shot

blasters. The cleaning of the filter cartridges is done automatically by compressed air pulses.

The VCE3000C is available as a Longopac version (VCE3000C LP) and alternatively as a unit fitted with a container (VCE3000C CT) – which consists of a separate mobile wheelbarrow with folding handles.

The systems can be ordered with or without HEPA filter.
